

**NOTE**

1. The maximum run length of a secondary circuit including fixture lengths, feed connector and extension cables is not to exceed 24M.
2. The maximum number of fixtures connected to a dimmer pack (LD-GR-DP) and a LED driver (LDR24-16) is 220pieces. This limitation applies to the combination of all fixture lengths of 300mm, 600mm and 900mm.
